

Engineer

FOR TECHNICAL PATTERN ENGINEERS

A proven, "3D ready", easy to use, technically advanced CAD/CAM system for shoe pattern engineers. Allowing all types of shoes to be fully engineered. Providing significant savings in time and cost and producing superior quality footwear. Containing a depth of functionality from 45 years of focussed innovation listening to the request of customers.

 **SHOEMASTER**[®]
A BRAND OF  **ATOM**

POWER

3D CAD module

3D/2D technical shoe styling system with last grading and advanced last flattening methods for various last and shoe construction types.

CLASSIC

2D CAD module

Easy to use, integrated, full pattern engineering and grading system.

TOOLING

JIGS AND PALLETS module

Software to quickly design 2D tooling such as jigs and palletes.

INTERFACE

2D CAM module

Optimal control software for 2D cutter/plotters.

BOM

BILL OF MATERIAL module

To simply create a shoe sample specification or prototype bill of material.
