

Design

FOR DESIGNERS, RANGE BUILDERS AND SAMPLE MAKERS

A flexible 3D CAD system that allows creative designers to quickly develop new ideas and concepts. Providing design tools to build ranges, experiment with more ideas and to reduce the number of physical samples. Producing virtual prototypes, data for rapid prototyping and an accurate transfer of design ideas to production.

Design

3D STYLE DESIGN

3D desing system. 3D CAD models can be rendered to produce photo-realistic images of shoes.

Interface

2D CAM MODULE

Optimal control software for cutter/plotters.

Keyshot

RENDERING

Rendering system provided together with the DESIGN packages. It's the ideal tool for the virtual prototyping activities.

Elast

ELAST OPTIONS

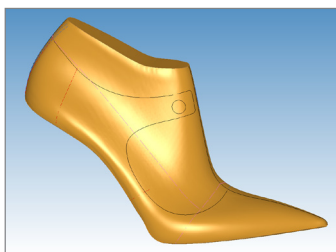

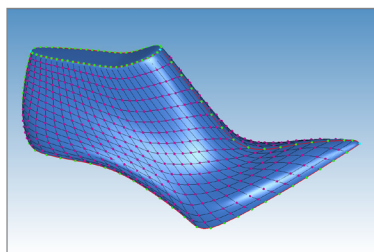

Integrated module to import last files from lastmakers or 3D digitizer.

Bom

BILL OF MATERIAL OPTION

To create a simple shoe specification with details of all materials and components to make sample shoes. Integrated in 2D and 3D packages.
